Loctek manufactures a wide range of innovative mounts for all applications. Whilst home entertainment is a large market we have not limited ourselves our mounts are designed for use in the following applications:

Home Entertainment Perfect for improving the viewing experience in your home. Loctek have a solution for every screen size from smaller screens right up to large screens. Loctek mounts are perfect for every room in the home from the lounge room, bedroom, kitchen, study and even the bathroom. Ideal for use in Apartments, homes, aged care, mining accommodation and any other type of home, Loctek mounts create increased flexibility and viewing options and are elegantly designed to provide a modern look in your home.

Business & Commercial Ideal mounting solutions for businesses in corporate, commercial and boardroom applications where the utilisation and installation of mounts through the office creates efficient use of your office space. Correct positioning and installation of screens and monitors also helps address occupational health and safety issues in the workplace.

Hospitality Mounting solutions for hotel and motel guest rooms, VIP suites, gaming floors, sports clubs, restaurants and night clubs, Loctek mounts are easy to install, aesthetically pleasing, secure, reliable and versatile. Mounting solutions that simply look great and fit perfectly.

Education Ideal mounting solutions for classrooms, auditoriums, cafeterias, gymnasiums etc. Loctek provides teachers and instructors with solutions for flat panel and projector mounting to make education easier and more enjoyable.

Digital Signage Mounting solutions for interactive displays in stores and restaurants, point of sale displays (POS), trade shows, information kiosks in common areas, or anywhere where information needs to be displayed. Having important information in plain sight is critical for so many businesses. Locteks range of mounts can be used virtually anywhere so that important information is in plain sight at all times.

Security Ideal mounting solutions for security applications. Monitoring and safeguarding important materials and property requires always having a perfect view of every area of the premises. Loctek offer solutions for screen mounts which are ideal for the security market. Designed to keep everything in plain and easy sight while saving space in tight areas.

Professional AV Mounting solutions for A/V and broadcast professionals where reliability and function are paramount. Loctek work extensively with Pro A/V installers to find out what they need, and then provide them with a wide selection of mounting options to meet their needs and requirements.

OEM Loctek is a leading supplier of mounting solutions worldwide. Loctek work together with original equipment manufacturers (OEM) to develop versatile mounting products and solutions for the latest display technologies as they emerge in the worldwide market. These relationships enable Loctek to stay at the forefront of the market with innovative, functional, reliable, and flexible mounting solutions.

Mounting Functions The range of Loctek mounts have been categorised and colour coded for easy reference.

Mounting Standards Loctek mounts support the worldwide VESA standard for mounting flat panel screens. This VESA standard outlines and specifies the exact placement of the mounting holes on the back of the screen where the mount attaches to. There are many VESA monitor mounting size configurations such as 75mm x 75mm, 100mm x 100mm, 200mm x 200mm as examples.

Please ensure that you take care when matching the correct VESA size on the back of the screen with the mount. Always pay attention to the weight capability of the mount and ensure that the wall or mounting surface must be capable of supporting the combined weight of the mount and the display, otherwise the structure must be reinforced.

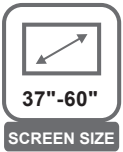

Full Motion Mounts

Loctek Full Motion mounts are designed to extend, retract, tilt and swivel in all directions. These flexible mounts are the ideal choice for most households due to their versatility. A full motion mount is recommended when multiple viewing positions are desired or when room shape or window location makes it difficult to properly position the screen. These mounts find the perfect angle for comfortable viewing without eye or neck strain.
