MCC6880

Dual USB Bluetooth FM Transmitter with Handsfree Function

No Bluetooth in your car? No Worries! Get yourself one of these great new Bluetooth FM transmitters from Mcdodo and you'll not only be able to stream music wirelessly; you'll also be able to take calls on the go!

The built in high quality microphone means you can keep your phone in your pocket and take calls through your factory car stereo.

It also has dual USB's for fast charging your phone or playing music directly from a Flash Drive!

Features:

Talk, transmit, charge and play

Bluetooth handsfree call capable

A2DP Bluetooth audio playback

Suitable for iPhones, iPads, smartphones and any other device with Bluetooth

Dual USB sockets for charging your device (5V 2.1A)

MCC1900

USB Car Charger With 4 x USB + 1 x Type-C Socket - 1.5 Metre Cable

With a whopping 5 external ports to choose from and 1.5m length of cable to play with, have 5 devices charging simultaneously. Great for those long road trips and packed cars! Everyone can plug their device in and charge up now!

Compatible with 12V-24V inputs making it suitable for cars, 4WD's and trucks.

Features:

Charge 5 devices simultaneously. The long cable length allows the people in the back of the car to have access to the charger as well.

Features a clip on the back which makes it easy to attach to the back of a seat

Features a soft LED RGB light so that it's easy to see in the dark. 107W high power five port car charger. Intelligent built in smart management chipset to ensure effective control of overload and heat. Flame retardant PC+ABS material is guaranteed to be safe and stable for long term operation. Wide compatibility: mobiles, cameras, wireless earphones, smart watch, games etc. The PD Type-C socket allows you to charge devices which require up to 20V including PD compatible Apple products.

The QC3.0 USB socket works with all the latest compatible fast charging devices including Samsung, LG, Sony, Oppo, Huawei and many more!

The QC3.0 USB socket works with all the latest compatible fast charging devices including Samsung, LG, Sony, Oppo, Huawei and many more!

The QC3.0 USB socket works with all the latest compatible fast charging devices including Samsung, LG, Sony, Oppo, Huawei and many more!

MCC7493

McDodo 30w USB-C Car Charger & USB-C to USB-C Cable - 2 In 1 Pack

MCC3690

75W PD USB-C + QC4.0 USB Car Charger With Voltmeter

Upgrade your charging experience and embrace the power of fast charging with the dual PD USB Type-C and QC4.0 USB-A charger with voltmeter. Compatible with 12V-24V inputs making it suitable for cars, 4WD's and trucks.

MCC7492

McDodo 30w USB-C Car Charger & USB-C to Lightning Cable - 2 In 1 Pack

MCC5970

Budget PD Type-C + QC3.0 USB Car Charger

Extremely compact and fast! Only 60mm and offers power up to 36W to greatly reduce device charging time. Compatible with 12V-24V inputs making it suitable for cars, 4WD's and trucks. 36W high power charger: Smart independent circuit operation which works to greatly reduce charging time.

MCC2950 15.5W Dual USB 3.1Amp Car Charger

Dual port mini fast charger in a compact design
 Soft cool white light
 Output: 5V 3.1A / USB-A2: 5V 3.1A.
 Input: DC 12V-24V
 Power: 38W (Max)

MCC2320 QC3.0+ PD 33W USB Car Charger

Dual port mini fast charger in a compact design
 Soft cool white light
 Output:
 USB-A: 5V 3A, 9V 2A, 12V 1.5A, 18W Max.
 USB-C: 5V 3A, 9V 3A, 12V 2.5A, PPS: 3.3V-11V 3A, 33W Max.
 Input: DC 12V-24V
 Power: 38W (Max)

MCC6602 Compact 2.4 Amp Dual USB 12/24V Car Charger

Incredibly small and compact; you won't even know it's there
 Safe to use: short circuit protection as well as protection against over heating, over charging and over loading.
 With the Aluminium Alloy outer layer, heat is dissipated at a very quick rate
 Suitable for both 12V and 24V vehicles.

MCC6601 Compact 2.4 Amp Dual USB 12/24V Car Charger

This compact dual USB charger hides away in your accessory socket allowing a sleek finish without sacrificing quality. 2.4amp smart switching technology will move the power where required if 2 devices are connected at once.
 The chip will sense when a device is fully charged and allocate extra power to the other device.
 Suitable for both 12V and 24V vehicles.

MCH2340

Magsafe 15W Magnetic Wireless Vent Mount Car Charger

Thanks to the built-in Magsafe technology, it has never been easier to safely secure your phone and wirelessly charge it at the same time.

The upgraded magnet ensures any impact is well absorbed, providing a stronger and more secure attachment.

Transparent, tempered glass housing allows you to see the inner circuit components. Gives off a cool light which makes it easier to find and line up your phone in the dark. Magnetic mechanism is made super effective via aligning the magnets.

Supports super fast charging of compatible devices. Comes supplied with the vent clip for mounting.

Magsafe only compatible with iPhone 12 or later

For Android compatibility use PC-1620 stick-on magnetic plate

****Charging capability only works with phone with wireless charging****

MCH7071

Magsafe Magnetic Car Dash Or Vent Phone Charger

Thanks to the built-in Magsafe technology, it has never been easier to safely secure your phone and wirelessly charge it at the same time.

The upgraded magnet ensures any impact is well absorbed, providing a stronger and more secure attachment.

The integrated swivel ball joint provides 360 Degree rotation which means your phone will be in the perfect position everytime.

Premium properties to protect against over-current, over-voltage, short circuiting and high temperatures. Robust construction. Stylish, contemporary black colour to match vehicle interiors. Magnetic design does not interfere with signal. Strong magnetic charging for iPhones

Comes included with 2x attachments:

Vent mount: Made from soft silicon which prevents scratches to the car vents and ensures a tight grip.

Dash mount: a large secure base with 3M tape.

Magsafe only compatible with iPhone 12 or later

TWO MOUNTING OPTIONS

For Android compatibility use PC-1620 stick-on magnetic plate

****Charging capability only works with phone with wireless charging****

MCH7620

15W IR Sensor Phone Holder With Wireless Charger Kit

The new intelligent ultra-fast wireless car charger can push out up to 15W of power. The IR sensor will automatically open the clamps and close once the phone is placed in the cradle. The cradle will also prompt you with a tone when the car is turned off if you haven't removed your phone – making sure you don't forget to take it with you. Comes supplied with both a windscreen and vent mount for the perfect mounting solution. (To get full 15w of power output, use a QC3.0 or higher USB charger).

TWO MOUNTING OPTIONS

MCM8490

Magnetic Dash Mount Phone Holder

Extremely compact and fast! Only 60mm and offers power up to 36W to greatly reduce device charging time. Compatible with 12V-24V inputs making it suitable for cars, 4WD's and trucks. 36W high power charger: Smart independent circuit operation which works to greatly reduce charging time.

MCM4050

Magnetic Vent Mount Phone Holder

With this unique magnetic design, no longer will you need to clamp your phone into a cradle. This phone holder can be used with Magsafe iPhones. Or, if your phone does not have Magsafe capability simply stick the supplied metal plate to the back of your phone to allow your phone to magnetically mount to this phone holder.

MCM4310

Vehicle Windscreen & Dash Mount Tablet & Phone Holder

This great tablet and phone holder is specially designed to be attached to the vehicle's dash or windscreen for the optimal viewing position. Incredibly easy installation, it simply suctions onto the dash or the windscreen. Multi-angle adjustable: this holder features a sturdy swivel ball connection which makes it easy to adjust the position of the device.

Equipped with a mechanical switch which ensures the device is securely fastened.

The adjustable arm is strong and flexible and allows for a more up-close viewing position.

The anti-slip rubber pads located on the clamps, protect the device from any scratches and ensures it doesn't move.

MCM4320

Vehicle Head Rest Tablet & Phone Holder

Keep the kids entertained on those long car trips with this fantastic tablet and phone holder. Specially designed to be attached to the vehicle's headrests for the optimal viewing position. Incredibly easy installation, it simply clips onto the steel headrest posts.

Multi-angle adjustable: this holder features a sturdy swivel ball connection which makes it easy to adjust the position of the device.

Equipped with a mechanical switch which ensures the device is securely fastened.

The adjustable arm is strong and flexible and allows for a more up-close viewing position.

The anti-slip rubber pads located on the clamps, protect the device from any scratches and ensures it doesn't move.

SS1781

Selfie Stick With LED Light, Bluetooth Remote And Tripod Stand

With this fantastic selfi stick, no longer will you have to rely on a stranger to take those scenic/ group photos for you. Use the removeable Bluetooth control and tripod base to capture all the best moments with ease. Equipped with adjustable clamps to fit phones of all different sizes Premium durable Alloy construction.

The base can transform into a tripod stand - perfect for those scenic, long distance shots Features a detachable Bluetooth remote.

The LED light ensures the perfect light in any condition - 3 settings to choose from Light weight and compact.

Mcdodo QC + PD Power Bank

Ultimate fast charging power bank with a huge capacity! Dual QC3.0 USB and one PD Type-C socket for charging Android and Apple devices.

The LED digital display will give you an accurate battery indicator so you'll never get caught out without power. Supports QC3.0 and PD fast charging to charge your compatible devices nice and quickly. The multiple voltage output is even powerful enough to charge a PD compatible laptop or MacBook. Built-in smart chip ensures that there is protection against over-charging and over-heating.
